Hi Layla,

Thanks so much for sending this through. I've had a thorough look through the website on all different screen sizes and I'm absolutely ecstatic with how it's turned out. You've done a fantastic job bringing my ideas and aspirations to life! I've also attached some screenshots I took on my mobile earlier while testing the site.

Here's my completed checklist below:

- ☒ Browsing products
- ☒ Navigating to a single products page
- ☒ Adding items to the shopping cart
- ☒ Using the Homepage call-to-action buttons to navigate
- ☒ Viewing the site on different screen sizes, like; Mobile, Tablet, & Desktop
- ☒ Placing a test order
- ☒ Registering & logging in as an admin
- ☒ Viewing the admin orders dashboard
- ☒ Checking the order status toggle button, ie; fulfilled/unfulfilled
- ☒ Clicking into a specific order to see shipping details & product summary
- ☒ I have some feedback or suggestions (optional): None at this time, everything worked as expected, which is great!

The site is beautiful and truly reflects the style we discussed in our meetings. The layout is clean and unfussy, without all the usual noise you see on most face paint websites. My face painting product colours really stand out against the white and pale pastel backgrounds.

The website was also very easy to use, that is; it felt very intuitive and flowed really well. I especially loved the hero section showcasing my face paint work; it really captures what the site is about and the kind of work I do.

So, I'm happy to confirm that all the features worked smoothly during my testing, and I was really impressed by how professional it felt. I honestly couldn't be happier, thank you so much!

Warm regards,  
Lea
